

## Administrative

CSci551: Computer Networks  
SP2006 Thursday Section  
John Heidemann

## Project B

- posted 8:40pm Monday March 27
- due noon May 3
- will build on project A
  - you should use your Proj A code if you can
  - if not, we will provide the TA's implementation of Proj A
    - it will be commented, but it is up to *you* to figure out the details of what must change
    - code will be on wiki by tomorrow
- many phases

## Homework 1

- answers starting to be returned
- will come back incrementally (like they came in :-)

## Homework 3

- posted March 23
- due April 12
- there will be one more homework

## Midterm

- to get yours back, see me after class or in office hours
- answers will be posted to the wiki site
  - in marked up versions
    - solid line: correct, full credit
    - wavy line: partially correct and partial credit
    - X: incorrect
- scores
  - mean: 43 (out of 87)
  - standard deviation: 12.5
- if you scored below 33, you need to think about what you're getting out of class
